

AMC EXECUTIVE DIAGNOSTIC FRAMEWORK

Understanding What's Really Happening Inside Your Business

Most businesses already have the information they need.

The challenge is seeing the complete picture.

THE EXECUTIVE CHALLENGE

Most organizations don't suffer from a lack of information. They struggle because operational, financial, and external business information is typically reviewed separately rather than together.

The AMC Executive Diagnostic Framework brings those pieces together so leadership teams can identify:

Emerging risks

Hidden cost drivers

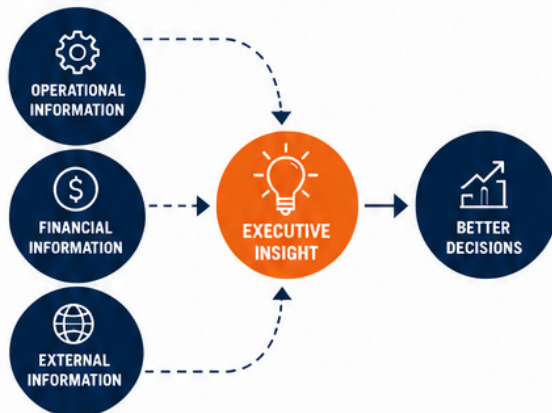

Performance issues

Strategic opportunities

before they become material problems.

EXECUTIVE INTELLIGENCE FLOW

Transforming disconnected information into practical executive insight.

TIER ONE

EXECUTIVE DIAGNOSTIC SNAPSHOT

A complimentary executive conversation providing an independent assessment of where deeper analysis is likely to create the greatest value.

OUTCOME

- ✓ Initial observations
- ✓ Opportunity map
- ✓ Next-step recommendations

TIER TWO

PRELIMINARY EXECUTIVE DIAGNOSTIC

A structured assessment synthesizing operational, financial, and organizational information into an Executive Intelligence Brief.

OUTCOME

- ✓ Pattern identification
- ✓ Hidden cost drivers
- ✓ Performance issues
- ✓ Prioritized recommendations

TIER THREE

ADVANCED DIAGNOSTIC & ADVISORY

Comprehensive decision-support engagement incorporating:

- ✓ Scenario analysis
- ✓ Decision support
- ✓ Implementation prioritization
- ✓ Ongoing intelligence services

POWERED BY EXECUTIVE INTELLIGENCE

AMC applies structured executive diagnostics to organizational challenges.

When engagements require advanced analytics, economic intelligence, industry research, or continuous monitoring, AMC leverages the analytical capabilities of **Veridian Data Analytics** to extend the diagnostic beyond traditional consulting.

UNDERSTAND BETTER.

DECIDE BETTER.

PERFORM BETTER.
